- CI/CD, Fastlane, Git, Bloc, Riverpod, GetX, Dio, Chopper
- Scrum, Kanban, Jira, Confluence, Clean Code, SOLID

## LANGUAGES

English, Russian, Uzbek

## EXPERIENCE

- **Eriell** Tashkent, Uzbekistan  
*Flutter Software Engineer* May 2023 - Present
  - Orchestrated the development of architecture for the Flutter projects, this pivotal initiative substantially enhanced collaboration and comprehension among Flutter developers and newcomers, fostering seamless communication and ensuring a standardized approach across all future projects.
  - Implemented streamlined CI/CD pipelines with Fastlane and GitLab, automating app building and uploads to App Store and Google Play Store. Boosted team efficiency, cutting manual tasks and accelerating app deployment for increased productivity.
  - Enhanced caching strategies and optimized API calls for legacy projects, resulting in a 40% reduction in unnecessary API requests throughout the app's lifespan.
- **Vention** Wroclaw, Poland  
*Middle Software Engineer* Jan 2022 - Apr 2023
  - Implemented cross platform and Native applications using *Flutter* and *UIKit/Swift*
  - Actively participated in daily meetings, sprint plannings, retrospectives and task evaluations.
  - Conducted code reviews for the team's engineers, averaging 2 PR's reviewed daily to ensure code quality and adherence to best practices.
  - Authored comprehensive documentation utilizing Confluence, providing a structured and accessible resource for project insights and guidelines.
  - Introduced UX improvements that significantly enhanced the app's usability, earning positive feedback from the client
  - Assisted team members in developing Native IOS application using *UIKit/Swift*
- **UIC Group** Tashkent, Uzbekistan  
*Lead Flutter Developer* May 2020 - Dec 2021
  - Led and supervised a team of five Flutter developers, guiding their efforts towards successful project completion and collective growth.
  - Crafted versatile UI components adopted across multiple applications within the company, contributing to a unified and consistent user interface experience.
  - Made Performance optimizations by minimizing UI redraws and other expensive operations
  - Integrated *Java/Kotlin* into Point of Sale (POS) Flutter application, using Platform channels.
  - Collaborated closely with cross-functional teams including backend and frontend developers, design team and project owners and managers.

## EDUCATION

- **Inha University** Tashkent, Uzbekistan  
*Bachelor of Science in Computer Science; GPA: 3.60 (8.0/10.0)* Aug. 2016 – May. 2020
